

CHICAGO'S BIG FIRE
COST HER \$3,000,000

HOW THE DEVASTATED LUMBER DISTRICT LOOKS.

Daylight Makes It Evident that Three Millions Will Hardly Replace the Property Destroyed—Five Men Lost their Lives—Wind Changed and Prevented Further Destruction.

CHICAGO, Aug. 2.—Fire started in the northwest corner of a lumber shed in S. K. Martin's yards at Lincoln street just south of Blue Island avenue, at 7:15 o'clock last night. Before it was under control it had swept into ruin half a mile of lumber yards, car works and smaller factories along the water front from Robey street almost to the Ashland avenue bridge and destroyed nearly \$3,000,000 worth of property.

How it started will probably never be known. John Mullin, a watchman, saw flames bursting out of the lumber shed and rushed to the alarm box at the corner of Lincoln street and Blue Island avenue. A storm had just blown up; lightning played vividly over the district, and a furious wind from the northwest carried the flames with fearful rapidity to the hundreds of lumber piles, some of them over sixty feet high, which are closely piled together over hundreds of acres of ground between the slips of the river and extending east and west for over four miles. One alarm was immediately followed by three others, and company after company rattled to the scene until over fifty engines were pumping water.

The fire started in a portion of the lumber district that was well nigh inaccessible save from the river. The general alarm followed so closely upon the first call that the fire department was taken unawares. Long weeks under a searching sun had made the lumber piles fresh fuel even for a spark.

Before the first engine arrived there was a fire that the entire fire department could not have checked within reasonable limits. The wind, which had been variable and favorable to the firemen, suddenly changed. The flames had been practically checked when the wind veered to the south and sent millions of sparks into the district northward. A dozen fires started without warning, scattering thousands of spectators who had secured what they thought to be safe places. When the wind changed the course of the million tongues of flame, a score of engines had to be removed. This meant more delay. The Santa Fe elevator on the other side of the river was discovered to be on fire. More than 1,000,000 bushels of wheat were in the building. The watchmen on the roof yelled and signalled to the fireboat a hundred yards away without avail. But a moment later the men on the fireboat saw the danger and hastened to the scene and soon had two streams at work. Freight cars on the track near the elevator were burned, but the blaze across the river dying out the elevator was soon placed beyond reach of danger.

Probably 100,000 people were attracted to the scene. Every fragment of cloud reflected as in a mirror the blaze. As far north as from Kenosha, Wis., and from Aurora came telephone messages asking for information. The entire city turned out to see the conflagration.

The immense yard of S. K. Martin & Co., extending half a block on each side of Lincoln street from Blue Island to the river, was soon a roaring furnace of flame, and the fire was eating its way through the yards of Perley, Lowe & Co., adjoining S. K. Martin on the east. Each of these yards were estimated to contain from 25,000,000 to 50,000,000 feet of lumber, besides many thousands of shingles and cedar posts. The plant of the Wells & French Car company, employing 2,000 men and extending from Blue Island to the river, between Wood and Paulina streets, was next attacked by the flames. The firemen by hard work were able to save a portion of the plant, but the foundry, the main building of the works, was destroyed. Near the river, in a corner of the block occupied by the Wells & French Car company, was situated the four-story brick plant of the Siemens-Halske company, manufacturers of dynamo and electrical appliances. The property was totally destroyed.

It was 8:30 when the roof of the big car foundry of the Wells & French company caught. The building was 300x60 feet and in ten minutes it was gone, and the shop building, another brick structure, 200x60 feet, was also annihilated. For an hour the firemen had been drenching the factory of the Siemens & Halske Electric company, but to no purpose. Eight hundred thousand dollars more went up in smoke and ashes. Thirteen engines were now lined up against slip A, only a block from the Ashland avenue bridge, and the wind suddenly veered round to almost due south and fell to a gentle breeze. At 11 o'clock the fire was under control, and the greater part of the big yards of R. F. Conway were saved. At the end of the dock the Barber Asphalt company's works were destroyed, and the Wakefield rattle factory was also in ruins. The fall of the wind stopped the onward career of the flames, which no number of engines could have accomplished. About 2,000 men will be thrown out

of employment by the fire as follows: Siemens-Halske Electrical company, 800; S. K. Martin & Co., 200; Perley, Lowe & Co., 200 and 500 employed by the smaller concerns.

Two lives are known to have been lost. Three other deaths are reported, but not confirmed. Several firemen were injured, some of whom may die.

The dead: MCGINN, LIEUT. JOHN, of the fire boat Geyser.

WOLLENFELL, WM. knocked into the river and drowned.

UNKNOWN man reported knocked into the river and drowned.

UNKNOWN man knocked into the river and drowned.

UNKNOWN boy, 17 years old, burned to death.

The injured: BURNS, CAPT., fireman, hit in face with stream of water and eye badly hurt. Will recover.

FLAHERTY, —, fireman, badly burned by being thrown into the fire by a swinging line of hose.

ORAY, JOHN, 23 years old, pipeman of engine company No. 26, severely burned about face, body and arms.

MURPHY, DANIEL, LIEUT., hook and ladder company, struck by flying brick.

FRIZAN, J. P., fireman, hit by swinging line of hose and knocked into the fire. Badly burned; will recover.

RICHTER, OTTO, fell from a lumber pile, had two ribs broken and injured internally; will die.

Missing: MAOS JOHN and wife.

It was probably the hardest fire which the firemen have had to fight in Chicago for some time. Chief Swenke said it was the largest fire of its kind that he had ever fought. He gave great praise to the work done by his men and said they could not have distinguished themselves better.

END MAY BE IN SIGHT.

Tariff Question Likely to Be Settled by Monday Night.

WASHINGTON, Aug. 2.—"Will the senate make a concession?" was asked of Senator Jones last night. "Not a concession," he laconically replied, but, he went on to say, "there is a spirit of conciliation evident now which I think will grow. I am no prophet, and my guess is not any better than that of any other man, but I believe that we will arrive at some understanding by Saturday night."

It is evident now that Mr. Cleveland will not yield entirely to the senate and that that body will not make any substantial concessions. The conference yesterday between the house and senate was taken up almost exclusively by a consideration of various compromises offered by the house conferees.

The President and those who represent him have all along declared for a substantial compromise with the senate, and the various schemes proposed from day to day are along that line. It is according to whether the compromise on any particular schedule is received by the senatorial conferees in a friendly manner or to the contrary that the stories of a speedy agreement are numerous or few.

There is a general feeling now that some sort of an agreement or basis of compromise as between the President and the senate will be reached not later than Monday night.

Sugar is still the chief point in the controversy, and when a surrender on either side is indicated in that schedule the end will not be far off. It was stated positively last evening by a senator who ought to know that the coal and iron schedule could be fixed up in a very short time if it were not for the position taken by the sugar men, and that the sugar trust was doing all it could to delay action on the tariff bill so that it could rush into this country the enormous purchases of sugar made abroad in anticipation of the new duty of 40 per cent ad valorem on the raw material.

Whaler's Crew Picked Up at Sea. PORT TOWNSEND, Wash., Aug. 2.—Mail advises from Unalakleet of July 20 state that one of the Behring sea patrol fleet has just returned from a western cruise and reported speaking a sealing schooner, which reported that another sealer, the name of which was not learned, had picked up a boat containing fifteen castaways belonging to the wrecked whaling bark, James Allen.

Keq of Gold Found. PARIS, Aug. 2.—The keq of gold reported stolen from a train between Havre and Paris has been found at the railway station, where it had been overlooked and left out of the car containing the rest of the \$2,000,000 shipped from New York. The missing keq, which has been forwarded to its destination, contained \$10,000, and not \$50,000 as reported.

Dispensaries Are Open.

COLUMBIA, S. C., Aug. 2.—The proclamation of Gov. Tillman opening all the state liquor dispensaries went into effect to-day all over the commonwealth. This action on the part of the governor has caused considerable comment, but he asserts that his action is justified by the law and the recent decision of the Supreme court.

Shining Specks on Mars.

NICE, Aug. 2.—Prof. Penrotin, director of the observatory here, reports that on July 23 shining specks were observed close to the lighted part of Mars, the same as observed at the Lick observatory.

Farm Houses Destroyed by Lightning. KIEL, Wis., Aug. 2.—A severe thunderstorm passed over this section. Lightning fired and destroyed several farm houses. The Catholic church in this place was struck and partially destroyed by fire.

WITH 300 WORKMEN
PULLMAN STARTS.

REPAIR SHOPS IN OPERATION THIS MORNING.

Big and Boisterous Crowd Surrounded the Works and Threatened Trouble But the Police Repressed Them—Omaha Butchers Refuse to Work Until Chicago Troubles End.

CHICAGO, August 2.—The Pullman repair shops started this morning. Three hundred men were at the benches most of them being new. A big and boisterous crowd was held in check by the police. It is proposed to send departments and to work as many men as return to their posts. The company has decided not to try to open the freightcar shop until later. Officials of the company say that numerous applicants from the strikers for work have come in to-day and that these, with the others who formerly filed their applications, will make a sufficient force to start up these two departments. When at full head the passenger and repair departments run probably one-third of the entire force of workmen. The rest are employed in the foundry, the freightcar and the streetcar making departments.

MORE OMAHA BUTCHERS STRIKE.

Refuse to Work Until Grievances Are Settled in Chicago.

OMAHA, Neb., Aug. 2.—The hog butchers at Swift's have joined the strikers. The grievance committee presented its grievances yesterday to the different packers and presented a scale of wages which they wish adopted, and a demand providing that all employees be reinstated to their old positions without prejudice. As a part of the Butchers' National Union the men refuse to work until grievances are settled in Chicago, St. Louis and Kansas City. At Hammond's the situation is about the same as yesterday, with none of the strikers returning. They were killing in the hog department. The laborers went out at Cudahy's yesterday leaving but a few men, not enough to run any one department.

Trouble at Coal City.

COAL CITY, Ill., Aug. 2.—The coal miners strike in this (the Wilmington) field yesterday assumed a more serious aspect than at any previous time. These mines, which comprise the largest companies in Illinois, have been idle since April 20, when the miners went out in sympathy with the Ohio and Pennsylvania miners, notwithstanding that a settlement was agreed to at Columbus, Ohio, between the operators and miners. The foreign miners have remained stubbornly obdurate; the English-speaking miners almost to a man have decided to break the deadlock and re-enter the mines. Work has already been resumed at Wilmington and Carbon Hill. The Big Four mines did not open because the men were afraid to go to work. The indications are that the mines will resume to-day.

Brotherhoods Meet in St. Louis.

ST. LOUIS, Mo., Aug. 2.—Representatives of the brotherhoods of railway trainmen, engineers, and telegraphers, and members of the several grievance committees of the Missouri Pacific and Iron mountain railroad operatives were in session all day yesterday. They preserve the most guarded reserve, but admit grievances exist which they are here to lay before the general managers of the roads. Other representatives of the railway operatives of these roads and some of the national officers of the railway brotherhoods are expected to be in St. Louis to-day.

Against All the A. R. U. Directors.

CHICAGO, Aug. 2.—District Attorney Milchrist filed a supplemental information in the Debs contempt case yesterday to include the directors of the American Railway Union on the charge of violating the order of the court. Since the attachment was issued against Debs, the district attorney declares, the directors have continued to send out orders by telegraph and other means to extend the strike without regard to the order of the court.

Will Not Reduce Santa Fe Wages.

TOPEKA, Kan., Aug. 2.—Judge Johnson, master in chancery for the receivers of the Santa Fe railway company, received a letter yesterday from Judge Caldwell of the United States Circuit court, inquiring as to the reported intention of the railway to reduce wages of its employees and questioning the propriety of such action. Judge Johnson made answer that no such action had been contemplated or was at all likely.

Indiana Natural Gas Fields.

INDIANAPOLIS, Ind., Aug. 2.—State Natural Gas Inspector Jordan in his annual report says that over \$300,000,000 has been invested in manufacturing in the natural gas territory of Indiana. The report states that many factories are being built.

Fort Omaha Troops Start for Home.

OMAHA, Neb., Aug. 2.—The four companies of the Fort Omaha battalion that left July 18 for Butte under Capt. Keller, started from Butte for home yesterday. It is thought the rest of the troops will be ordered home by the end of the week.

A BATTLE IMMINENT
ON COREAN SHORES.

THIRTEEN CHINESE WARSHIPS APPROACHING THE JAPS.

Eight Russian Vessels Have Left Vladivostok Under Sealed Orders—United States Embassy in Tokio Offers Protection to Many Chinese—Official Inquiry Proposed.

YOKOHAMA, Aug. 2.—The Chinese minister demanded his passports today. Many Chinese residents in Japan have placed themselves under the protection of the United States legation.

SHANGHAI, Aug. 2.—It is rumored that eight Russian warships with troops have left Vladivostok for China, under sealed orders.

COPENHAGEN, Aug. 2.—It is officially announced that the Chinese fleet of thirteen vessels, has left Chefoo for Corea. A battle is expected hourly.

CHINA WILL LEARN FACTS.

Official Investigation of Sinking of the Transport—Col. von Hannekin Saved.

LONDON, Aug. 2.—Mr. Hugh Mathieson of Hugh Mathieson & Co., and Jardine, Mathieson & Co., London and Shanghai, from whom the Chinese transport Kow Shung, sunk by a Japanese cruiser, was chartered, received a dispatch to-day from Tien Tsin, dated Aug. 1, saying that Col. von Hannekin, formerly aid-de-camp of Li Hung Chang, the viceroy of China, who was on board the transport when she foundered, was saved.

The dispatch adds that a court of inquiry has been opened at Tien-Tsin in order that all the facts in connection with the sinking of the Kow Shung may be known.

SENDS FORCES TO COREA.

China's Action Is Viewed With Alarm by Japan.

YOKOHAMA, Japan, Aug. 2.—A dispatch has been received here which is supposed to refer to the Kow Shung, but which may refer to the Chen Yuen. It says that a Chinese warship and a transport having on board 1,500 troops have been sunk by Japanese warships, and that a Chinese gunboat has been captured by the Japanese. The government of Japan has been informed that Chinese reinforcements have been sent to Corea, which fact Japan considers a menace.

To Apologize to Great Britain.

TOKIO, Japan, Aug. 2.—The Japanese government has instructed its minister in London to apologize to Great Britain for firing upon and sinking the transport Kow Shung, while she was flying a British flag. The Japanese minister has been instructed to inform Great Britain that the commander of the Japanese cruiser did not know that the Kow Shung was a British vessel until after the fight.

APPEAL FROM COXEY.

Asks Congress to Issue \$500 Worth of Rations to His Starving Army.

MASSILLION, Ohio, Aug. 2.—"Gen." J. S. Coxey has issued the following appeal to congress: On behalf of 400 hungry citizens of the United States now assembled near the capital to secure redress of their grievances, the undersigned most respectfully petition that you immediately pass a resolution authorizing the secretary of war to issue \$500 worth of rations to relieve them in their present distress until food now in transit from the west, but detained on account of the strike, can reach them.

No Indemnity for Queen Lil.

WASHINGTON, Aug. 2.—The administration is informed that ex-Queen Lilioukalani's commissioners are here not to advocate annexation so much as to get a money indemnity for her ex-majesty. The indemnity will be asked for on the ground that President Cleveland publicly declared that the queen was overthrown through the wrongful acts of this country's representative. This, when the claim for indemnity is presented, will be admitted to be correct, and this will be the administration's reply:

"We did admit our wrong, but we then submitted a proposition to the queen for undoing it. Had she agreed the wrong would have been righted. She declined and that settled it. We can do nothing more."

Lutherans in Session.

CLEVELAND, Aug. 2.—The annual convention of the Lutheran Evangelical church of the Central Synod of Missouri, Ohio and Indiana was called to order in Zion church, here, yesterday. About three hundred and fifty delegates are in attendance. Rev. H. C. Schwan, formerly pastor of Zion church, delivered the opening address, after which various subjects of doctrinal thesis were taken up and discussed by the convention. The afternoon session was devoted to business matters of the church.

Severe Storm Sweeps Colorado.

HUGO, Colo., Aug. 3.—A terrific rain-storm swept over Lincoln county last night, doing great damage, particularly to the railroads. In the vicinity of Lake station on the Union Pacific several sections of track were carried away. Passenger trains were delayed many hours and wrecking trains were sent out from Cheyenne, Wells and Denver. Fear is expressed that the reservoir on the Big Sandy will break.

IOWA DEMOCRATS NOMINATE.

Full State Ticket Named in Their Convention Yesterday.

DES MOINES, Iowa, Aug. 2.—The democratic state convention was held here yesterday. The attendance was rather small, but much enthusiasm was shown. The morning session was spent in routine work.

When Gov. Boies took the platform before the opening of the afternoon session he was heartily cheered. The ex-governor was visibly affected by this reception and he courteously thanked the convention for it. He then read his address.

The committee on resolutions not being ready to report the nomination of a state ticket was next in order. The full ticket is as follows: Secretary of state, H. F. Dale; state auditor, John Whitfield; treasurer, L. W. White; Judges Supreme court, John Clegg and J. D. F. Smith; railroad commissioner, W. L. Parker; clerk of Supreme court, T. R. North; Supreme court reporter, J. J. Shea.

The platform declares in favor of a tariff for revenue only, commends the administration of President Cleveland, favors the election of United States senators by direct vote of the people, for just and liberal pensions to deserving veterans, condemns the "mule law" in the state, demands that the state institutions be left to the management of a single non-partisan board of control, and denounces as un-American any society or organization that is pledged to deprive any citizen of his right to vote or hold office on account of his religious beliefs or nationality. The money plank is as follows: "With the national democratic convention of 1892 we hold the use of bot. gold and silver as the standard money of the country and the coinage of both gold and silver without discriminating against either metal or charge for mintage, but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value, and we demand that all paper currency shall be kept at par with and redeemable in such coin."

The minority report on the subject was as follows: "We favor bimetallism, the use of both gold and silver as the standard money of the country, and for the coinage of both gold and silver without discriminating against either metal. We also demand such legislation and such action on the part of our government as will increase the coinage of silver and maintain it equal in value to gold."

A roll call was ordered on the minority report and it was defeated by a vote of 697 to 329. The convention then adjourned.

LYNCH A WHITE MAN.

Mob of Colored Men in Elkhorn W. Va. Avenge a Killing.

ELKHORN, W. Va., Aug. 2.—Anderson Holliday of this place, while drunk yesterday, shot at Bob Calloway and missed him but the bullet passed through the head of Wesley Cobbs, killing him instantly. Holliday was arrested by Squire Pierce and a posse. A mob of 300 tried to take him away from the officer. For three hours Pierce and his men kept the mob at bay till the train came, but when they went to put their man aboard for Welch, about 300 armed negroes made a rush and succeeded in getting him from the officers. They then took him about a quarter of a mile into the woods and hanged him to a tree and then riddled his body with bullets. Holliday was a tough citizen and has always borne a shady reputation. Cobbs was a quiet man and was respected by all.

Prompt Strike News for Byrnes.

NEW YORK, Aug. 2.—It came out at the police board meeting yesterday that whenever any big strike or riot has been going on out of town Supt. Byrnes has obtained permission from the Western Union Telegraph company to tap its underground trunk wire and receive prompt news direct from distant points. The Western Union people have consented to make this arrangement permanent. The news has created a sensation in the city, as information of every description is thus placed at the disposal of New York's corrupt police force.

No Signs of a Sympathetic Strike.

KANSAS CITY, Mo., Aug. 2.—All is quiet here among the packing-house butchers. There is no apparent foundation for the report that they intended striking in sympathy with the Chicago and Omaha men. Wages have not been reduced at this point, and the men say there is no grievance.

FIRES ARE BURNING
IN EAST AND WEST

BUSINESS PORTION OF LAMORE N. D. DESTROYED.

All the Records of the County Lost in the Flames—D. E. Stone & Co's. Furniture Plant in Indianapolis Goes Up in Smoke—Rain Helps Phillips.

LAMORE, N. D., Aug. 2.—The business portion of this city, including the court house and all the records, was destroyed by fire this morning. The fire is still burning.

INDIANAPOLIS, Aug. 2.—D. E. Stone & Co's furniture plant burned this morning. The loss is about \$60,000.

PHILLIPS, Wis., Aug. 2.—The rains have settled the fires in this district and cleared the atmosphere of smoke and dust. Supplies of provisions, bedding and clothing continue to come, seven carloads and some smaller lots being received last night. Word has been received that twenty-eight carloads of lumber are on the way here for free distribution. The total amount of the cash contributions for the relief of the Phillips sufferers is \$2,412, including a donation of \$500 from Marshall Field of Chicago.

MUST GIVE UP INTEREST.

Judgment Against Wisconsin State Treasurers Bates and Kuhn.

MADISON, Wis., Aug. 2.—Judgment has been rendered by Judge R. G. Siebeker, of the Dane county circuit court, against State Treasurers Bates and Kuhn for interest on state funds retained during their terms of office from 1870 to 1878, aggregating \$181,015. This case differs from cases previously decided in that the law, which took effect in 1873, specified that the treasurer must thereafter turn all fees and perquisites into the state treasury. The defendants contended that this implied a ratification of their previous acts in taking interest, but Judge Siebeker holds that it has been decided that such interest is not a perquisite, but part of the state funds.

To Report Anti-Option Bill.

WASHINGTON, Aug. 2.—The anti-option bill is to be favorably reported to the senate. The committee on agriculture so decided yesterday. The subcommittee having the measure in charge reported it favorably to the full committee, which, after a very brief discussion, instructed Senator Washburn to report it to the senate. Senator Washburn has the bill in his pocket and will make the report at the first opportunity. It will then go on the calendar.

The bill will stay on the calendar so far as this session is concerned. Senator Washburn would like to get it up before adjournment, but he admitted yesterday that he had no hopes of doing so so that it will go over till after election. The committee made no material amendment to the bill.

Illinois Republican Committee.

CHICAGO, Aug. 2.—John R. Tanner was placed at the head of the republican organization in Illinois yesterday by a unanimous vote. Charles A. Partridge of Waukegan was elected secretary, with Carl E. W. Willard of Joliet and Charles A. Stone of Chicago as assistants. Charles Goetz of Chicago, A. W. Berggren of Galesburg, and Daniel Hogan of Mount City were elected members of the committee at large. Chairman Tanner announced the executive committee as follows: T. N. Jamieson, chairman; Henry L. Hertz, W. T. Ball, and E. H. Morris, Chicago; Walter Reeves, Streator; C. P. Hitch, Paris; Charles A. Rannells, Pisgah; W. H. Hainline, Macomb; I. C. Copley, Aurora; L. S. Wilcox, Campaign; W. S. C. Rhea, Marion.

Broken Axle Causes a Bad Wreck.

LANCASTER, Pa., Aug. 2.—A broken axle on a train comprised almost entirely of coal cars caused a bad wreck on the Pennsylvania railroad at Pomeroy, twenty-five miles east of this city, at a late hour last night. Eighteen loaded coal cars were hurled from the track, and their contents, aggregating 400 tons of coal, were scattered in every direction, blocking all tracks and tearing up the rails. Two men were slightly hurt and four are said to be missing.

Troops to Be Sent Home Soon.

CHICAGO, Aug. 2.—After a conference with Mayor Hopkins yesterday afternoon Assistant Adjutant-General Bayle of the Illinois national guard stated that the commanding officers of the troops still in the field at Pullman and other points in that district expected to see the men ordered home this evening or tomorrow.

Militia Recalled From Cripple Creek. DENVER, Colo., Aug. 2.—Gov. Waite has finally issued an order recalling the militia from Cripple Creek. He says he thinks the trouble in the great gold camp is ended.

Phillips' Records Safe.

ASHLAND, Wis., Aug. 2.—The vaults in the ruins of the court house at Phillips have been opened. All the records were found in a good state of preservation.

No Riot at Yale, Kan.

KANSAS CITY, Mo., Aug. 2.—A special investigation from Pittsburg, Kan., says: Upon investigation the report sent out yesterday of a bloody riot at Yale proves to be a canard.

CATHOLICS DIVIDE OVER THE PICNIC.

FATHER ROCHE OPPOSED TO UP-RIVER DANCING.

Liquor Selling at the Parks Leads Him to Tell His Flock Not to Attend the A. O. H. Entertainment—Details of the Day at Crystal Springs.

Lines were drawn sharply among local Catholics over the A. O. H. picnic. Rev. Father Roche warned his congregation not to attend, declaring that he wished no member of his church to sanction any picnic up the river where there was liquor selling, or night dancing. This warning was couched in emphatic terms, and was the same in substance as he gave after the Fincin murder. At that time he said in his sermon that such murders were no more than were to be expected, considering the circumstances.

Many local Catholics did not agree with Father Roche in his ruling against the A. O. H. demonstration and Rev. Fathers Condon and Collins occupied seats on the stand when the speaking began at 5 o'clock. J. L. Mahoney presided and there was music by the Amphion quartette and the Bower City band and Piper James Touhey. Mayor Thoroughgood made the first speech.

Mayor Speaks on Local Themes.

The mayor paid a graceful compliment to Ireland's sons and daughters and offered a few recollections of old days in the city. He touched upon the hard times and said:

"Janesville has much to be thankful for. We have no public soup kitchens although we have many poor people, many of whom have had to ask for alms who have never had to do so before. There are very few of you within the sound of my voice who know of the many charitable committees in Janesville composed mostly of ladies, who are making quiet pilgrimages to the deserving poor in this city. I must here commend the Irish people for their charitable disposition. Whenever a case of necessity shows itself, a raffle or a dance or some other way is immediately decided upon, the proceeds many times exceeding their expectations. As was the case with Mrs. Donovan, the funds of which I was custodian. Perhaps Mrs. So-and-So's cow died—a raffle. So-and-So's horse died—a raffle. Had I not half the cows I bought tickets on and otherwise subscribed to, the past twenty-five years, I would have cattle enough to stock a good sized farm, but no cow ever came my way, nor could I have milked it if there had, so the cow did not suffer through me.

May Need Public Work.

"It may become necessary to start some public work this winter for the purpose of giving employment to the idle of this city. I believe if it became necessary to do so the common council would not long hesitate, and I can assure you your mayor would not stand in the way. I am no advocate of running the city into debt, necessitating an increase of your taxes, especially these times, but should work be scarce and our citizens were suffering for want of employment, I should not consider it running into debt, but would rather consider it a way to keep the laboring man from debt."

Judge M. V. Gannon, of Chicago, gave one of the best addresses the Janesville A. O. H. have ever heard. He emphasized the declaration that it was not against England, but against English misrule that Ireland fought, and said:

"It is not generally understood that nearly every man who led in the movement to free Ireland from British misrule in the last century, with the single exception of O'Connell, have been Protestants. Tone and Fitzgerald, Emmet and the brothers Shearers, Mitchell and Martin, Smith, O'Brien and Parnell have all been Protestants, or non-Catholics, noble souls who burned with manly indignation at the sight of the atrocities perpetrated in the name of law upon a patient, valorous and long-suffering people."

The Irish in America.

Touching upon the Irishman's reception in America Judge Gannon said:

"A persecuted people are very quick to realize the humanity which prevails in a truly popular government. In a monarchy defeat means death or exile and confiscation to the defeated. 'In our late civil war the great silent soldier, Grant, never entered Richmond. He gave the officers their horses and side arms, and told them all to go home and build up the waste places made by war. How beautifully the noble Irishman, John Boyle O'Reilly, expresses it:

"Not thus, Virginia, did thy victors greet
At Appomattox him who bore defeat;
No brutal show abased thine honored state;
No brutal turn from Richmond at the very gate."

"These are the principles and practices which appeal strongly to the freedom and justice loving heart of the Irishman. He loves the country of his birth and of his fathers. He is a poor creature who does not love the mother who bore him, and he is a poor American citizen who does not wish to see his mother-land placed in the family of nations."

Judge Gannon adjured all sons of Ireland who called the United States their home to obey the law while in operation; to change it by the ballot if oppressive, but above all to obey the law to educate, educate heart and brain and hand, and in the hoped for future, Ireland, glorious little Ireland, will become picket in the east of giant Columbia's phalanx of states.

Prizes For Jigs and Reels.

At the conclusion of the speaking

the dances were announced. Prizes were awarded as follows:

BICYCLE TOURISTS IN THE CITY

Three Young Men From Rockford Making a Circuit of the State.

Three Rockford young men—Will Cole, Lee Burr and Webb Stevens—started from Rockford this morning at 5 o'clock, on a long bicycle ride through Wisconsin. The boys arrived at the Janesville postoffice at 8 o'clock, in fine condition, and apparently as fresh as at the start. After halting for half an hour, they started out for Madison, their next stopping place, expecting to be in the Capital City in time for dinner.

"We are not trying to make fast time," said Mr. Stevens. "We go from Madison to Milwaukee, then to Oshkosh and to Berlin, where we meet a number of others from Rockford, who are to take part in a bicycle race. We are out for a long ride and to see something of Wisconsin. We intend to visit all the larger places in the state before returning home."

The boys were dressed in close bicycle costumes and had a change of clothing and a lunch box strapped to their saddle.

AL. KNEFF'S STORE WAS ROBBED.

Nothing Left But the Tables and a Dog Full of Chloroform.

Al. Kniff, who has been running a merchant tailoring establishment at 269 Lincoln avenue in Chicago, has lost everything through a burglary. He came down to his place of business Sunday morning and found that burglars had removed everything from the store except the furniture. Not only were all the patterns in the windows taken, but the contents of four tables, besides considerable clothing that had been left there for repairs, and which Mr. Kniff made good to his customers. The dog that was supposed to guard the store had been chloroformed. Mr. Kniff may decide to live in Janesville again. He has taken his old position as cornetist in Johnny Smith's orchestra.

A. C. KENT PATENTS A LAWN MOWER

Janesville Man's Invention Recognized by the Washington Authorities.

A. C. Kent of this city, has secured letters patent on a lawn mower of new design. Other Wisconsin patents have been granted to Wisconsin people as follows: L. C. Stark, Appleton, lawn mower; C. M. Conradson, Madison, turret lathe; F. F. Dumke, Milwaukee, panoramic camera; N. Johnson, Chippewa Falls, sash fastener; L. Leber, Burlington, box fastener; F. Litchfield, Milwaukee, sewing machine; P. O. Sarroll, Milwaukee, note indicator; A. W. Robinson, Milwaukee, journal box for dredging or like machinery.

KILL POTATO BUGS WITH SALT

Farmers Find the Cheaper Remedy As Good as Paris Green.

Slaughter of potato bugs may be far more economically conducted than in past years. The bugs may be killed as surely with salt as with Paris green. Make a saturated solution, that is, all the salt the water will dissolve; pour it off clear and reduce with water one-third to one-half.

FOOD FOR PHILLIPS SHOULD BE SENT.

JANESVILLE PEOPLE ARE WILLING TO CONTRIBUTE.

If No Public Meeting Is Called Mayor Thoroughgood Would Be Justified In Appointing Canvassers to Collect Clothing and Supplies in the Various Wards.

It is suggested that a meeting of citizens be called for the purpose of taking organized steps to send relief to the sufferers at Phillips and other places in the northern woods. Many families have lost everything by forest fires, and are actually in need of food and clothing. A meeting of citizens at this time seems to be the proper thing. Committees could thus be appointed with authority to canvass the city and collect supplies. Janesville people are ever willing to give aid in such cases, and they do not wait to be appealed to more than once. A carload of supplies could be gathered up in a few hours by organized efforts. Many families are now living in military tents furnished by the state, and are being supplied with food and clothing as it is forwarded from other places. Janesville is ready to contribute liberally. Let the committees be appointed. It might be well for Mayor Thoroughgood to appoint a committee in each section of the city to make a canvass, instead of calling a public meeting. No one could object to such a proceeding, nor would they criticize appropriation of a reasonable sum, by the common council. Action is being taken by Grand Army men and citizens at large should not be outdone.

Mayor Has Received No Call.

Mayor Thoroughgood was seen this afternoon, and replied to a question propounded by a Gazette reporter:

"I am ready to advise our people at any moment regarding relief for the fire sufferers, but I am not informed as to what is needed. I have not received a word from any one asking for relief, and all I have seen is that published in the papers. If it is deemed best to call a meeting to talk the matter over and select committees to make a canvass of the city for aid I will call it, or I am willing to appoint a committee without a meeting of citizens, if such a course is thought best. From what I read in the papers, I think the people up around Phillips are suffering for the lack of supplies, but I don't know that they have a relief committee up there to receive contributions. If they are in distress I should think the home authorities would advise the authorities of other places. However, I am ready and willing at any moment, to do whatever is deemed best and proper, and you may so state in the Gazette."

STATE NEWS BRIEFLY PUT.

EAU CLAIRE is still afraid of being burned out.

A CUP of liquid fly poison killed little Della Davis of Fort Howard.

POPULISTS hold conventions in every congressional district in the state this year.

PRENTICE, which was thought to be in danger from forest fires, is all right.

JOHN YENGER, an old resident of Kaukauna, was run down and killed by a train.

WILFRED WOODBURY was convicted of adultery at Portage and sentenced to one year at Waupun.

THE water is so low at La Crosse that none of the large river boats are landing there at present.

THE phone lines from Berlin to Watonsa, Neshkoro, Pine River and Tustin are being taken down.

DR. HAROLD GRAF, of Eau Claire, stabbed himself to the heart while partially insane from morphine.

A CREW of eighteen men left Eau Claire on Tuesday to fight fire at Bell's camp, about six miles south of Long lake.

BURNETT county is in one dense cloud of smoke, and the people are praying for rain. The air is hard to breathe.

CHARLIE VELIE of Marshfield, a seven-year old boy, got his hand caught in the gearing of a bicycle and lost two fingers.

HARRY KOCH of Columbus, who fell from a wagon Sunday, injuring himself so that his leg had to be amputated, died yesterday.

KENNETH MCKEON, of Chippewa Falls, was obliged to whip his horses through running fire while on the way to Little Falls.

A RATHER notable marriage took place in Grafton, Ozaukee county, both of the contracting parties being over eighty years of age.

THE Northwestern railway shops at Kaukauna have started up again, working ten hours a day. Before the Pullman strike the working day was eight hours.

THE continuous drouth is growing alarming in Racine county. Not only are the crops being burned up, but field after field of hay and grass is being consumed.

A two year old girl, Alida Hannefeld, living a few miles west of Brodhead, with her parents, set fire to her dress while playing with matches. The mother made heroic efforts to save the child and in so doing burnt her hands severely. She extinguished the flames by plunging the child in a tub of water. The child was so badly burned that it died from the effects twelve hours later.

PINCH DURING HOT WEATHER.

Local Business Men Cut Down Their Income by Their Blindness.

A great many merchants cut down their advertising in the summer. Some even stop it altogether.

In every-day life, when a thing is hard to do, it only calls forth greater effort. If the laborer can't move the stone he gets a crowbar and a block of wood.

He makes a lever, and the stone moves. If the crowbar isn't long enough, he gets something longer. He doesn't give up, because the stone has got to be moved.

Same way in business. Trade is a stone. The funny thing is that the lighter it gets the harder it is to move. It can be moved though. You may have to lengthen the lever. Certainly you ought not to shorten it.

The best business lever is advertising, newspaper advertising is the longest lever and the quickest to move trade.

Dull times are the times to put forth the greatest effort and the most money. People don't usually ask for what they have already. Advertising is merely asking for trade.

When the store is full every day, cut down your space. Don't expect that you will get a big trade in dull times, but keep count and you'll find that the advertising was profitable.

Profitable at the time and enormously profitable after a while. The very fact that only a few merchants are wise enough to advertise in dull seasons, makes it all the more profitable for those who do. You are these when others are not. It gives you greater prominence. It will make your advertising in busy times much more effective.

Common sense has a great deal to do with advertising. Think about it from a common sense standpoint. It may take some 'nerve' to pay out money for newspaper space when the business isn't paying expenses but it will pay.

More than half the business houses in the country would be ahead if they could shut up three months in the summer. But they don't do it. Why? Simply because they can't afford to. People would forget them.

Same way with advertising. Think of it.

THIRTY-TWO ARRESTS LAST MONTH

Fifteen More Than Were Made in the Same Month of 1893.

Municipal Court Clerk W. F. Williams has completed his July report for submission to the common council. The report shows thirty-two arrests for the month of July, being an increase over the arrests in July last year of fifteen. There were twenty-three convictions; eight were discharged, and one case remains to be disposed of. Eight who were convicted paid fines amounting to \$127, and fees amounting to \$15.50, making a total of \$142.50. Fifteen served time in jail. "Drunk and disorderly" was the most common charge, yet there were a number of plain drunks; one case of over-driving a horse, an assault and battery, and one assault with intent to kill.

WHAT WOULD HE DO?

A Rain-Storm Parallel For People Who Talk Tariff.

The Chicago Herald asks: "How can it be justly charged that democratic policy is the cause of the present depression, seeing that the republican tariff is still in force?" It would be good to ask the brilliant writer of the above (who doesn't yet seem to understand what effect threatened free trade has on the business of the country) what he does when he sees a big rain-storm coming up. Does he stand out until it hits him, or does he exhibit a little brains, like most people, and go in before he gets wet?

MYSTERIOUS DISAPPEARANCES COMMON IN EVANSVILLE.

Two Added to the Roll of Missing this Week and the Relatives Who Are Left Behind Can Find Neither Track Nor Trace of the Wanderers.

People drop out of sight in Evansville in the most startling fashion. Two are on the roll of missing this week, and nobody seems to know where they went. Arthur Bishop is one. He drew quite an amount of money from the bank and attended the bicycle races at Madison Saturday, which is the last that has been heard from him.

Bert Crawford, about sixteen years of age, son of W. J. Crawford, a well-to-do farmer, residing about one and one-half miles west of Evansville, disappeared from home on Saturday, and all efforts to find him have proved fruitless.

He was last seen to board a north bound freight train. His parents and relatives have searched Madison, Baraboo and other surrounding places, but can not gain the least clue to his whereabouts. Dr. Herrington, a clairvoyant of Madison, has been consulted and he locates the boy in Janesville and says he will be home in a few days.

WHAT TO DO WITH CITY FUNDS

Salt To Be Brought Against the Treasurer of Racine.

What to do with city funds still bothers the aldermen in Racine. The city council approved the \$150,000 bond of the Union National bank which was recently named the city depository, they offering 2 1/2 per cent for the daily deposits of the city treasury. The city clerk will notify the city treasurer to deposit the moneys in the bank named. It is understood that he will, or has refused to transfer the money from another bank on the ground that the action of the council is not legal. The city will sue his bondsmen for the interest money when it becomes due and the bank named as the city depository will also bring suit.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

HER BIRTHMARK.

Strange Disfigurement Caused by a Mother's Fright.

Little Seraphina Scialolina lies in one of those tiny cots in the children's ward at Bellevue with that horrid snake around her neck still, says the New York Recorder. She is laughing and bright-eyed and does not mind it at all. She wonders what everybody is looking at her so for, and when strangers go in and shudder as they see the hideous thing she chuckles and coos merrily. That snake is something that has been puzzling the doctors for ten days. The little two-year-old was taken from her home at 43 Oak street, with a broken leg. The mother and father had thought it nothing strange that a snake should be coiled about their little one's neck in that threatening way. It looks brown and scaly, and is raised about a tenth of an inch from the surface of the skin. Dr. Getty has tried to see if it couldn't be taken off, but none of the Bellevue doctors think that the experiment could be made with success. The head of the snake is like that of a rattlesnake, and rests just below the collar bone. The coils go around the neck twice. The tail is under the lobe of the right ear. The thing is eighteen inches long.

The mother is 31 years old and came from Paladino, Italy. Seraphina is the second of three children. The mother was married four years ago. She says that when she was a girl her father was a boatman, and she used to help him unload fruit from his boat. One day a great snake darted from the fruit and coiled itself around her arm. She went into hysterics. Ever after that fright visions of snakes have haunted her. They appeared to her nearly every night before Seraphina was born. At the birth she had an awful vision, and she thought that the snake had coiled itself around the baby's neck and was trying to strangle it. The birthmark has continued to grow more distinct, instead of disappearing, as the child's parents thought it might.

TOO MUCH DOG.

A Man Nearly Drowned by a Couple of Pet Animals.

"I was nearly drowned last fall, owing to the pernicious activity of two very fine Newfoundland dogs," said H. W. Pritchett, of Denver, Col., to the Globe-Democrat writer. "I had reluctantly formed one of a picnic party, and in the course of the festivities rowed a couple of ladies in a small boat on a river. We ran into an obstruction and were upset. The river was neither wide nor deep, and I got the two ladies to the bank without any difficulty. Then I returned to rescue the boat, and just as I reached it, the two dogs, which had been brought to the scene by excited members of the party, sprang to my rescue. Unfortunately for me, each one started from an opposite bank, and each one was absolutely determined to take me back from whence he started. My coat was nearly torn off my back, and I wrestled and struggled until nearly exhausted. The owners of the dogs whistled them off, but each one evidently took the whistle for a call to further exertion, and I was still further attacked and worried. Finally a friend who saw the situation was becoming serious came into the water with a club, beat off one of the dogs and allowed the other to drag me in a fainting condition to the opposite bank. The sagacity and kindness of the dogs was obvious, but the next time I fall into a shallow stream I want to reserve the

privilege of being allowed to swim or crawl out unaided."

Hypnotism.

It is interesting to read that the British medical association has investigated hypnotism, affirmed that it is a genuine force, and advised that its use should be forbidden to all except physicians. That is just like the doctors. If after endless trouble you succeed in convincing them of the value of some novelty in therapeutics, they turn on you at the first chance and proclaim that the thing is indeed a good thing, but that they are the only folks fit to be trusted with its application. And the best of it is that the public usually agrees with them.

Mind Your P's.

Persons who patronize papers should pay, for the pecuniary prospects of the press have particular power in pushing forward public prosperity. If the printer is paid promptly and his pocket-book plethoric by prompt paying patrons, he puts his pen to paper in peace, he prints his pictures of passing events in more pleasing colors, and the perusal of the paper is a pleasure. Paste this piece of proverbial philosophy in pumpkin pie order in some place where all persons may see it plainly.—Rural Californian.

An ordinance to amend an ordinance entitled: "An ordinance to provide for the issue and sale of certain school bonds and for the annual tax levy to pay the same," passed May 21, 1894.

The Mayor and Common Council of the city of Janesville, do ordain as follows:

Section 1. Section 1 of an ordinance entitled, "An ordinance to provide for the issue and sale of certain school bonds, and for the annual tax levy to pay the same," passed May 21, 1894, is hereby amended by striking out of the same the following:

"Six of said bonds on the first day of November 1913."

"Twelve of said bonds on the first day of November 1912," so that said section when amended shall read as follows:

Section 1. The city clerk of said city of Janesville is hereby directed to prepare and put in the hands of the treasurer one hundred and ten (110) bonds of said city, for the sum of five hundred dollars (\$500.00) each and bearing interest at the rate of five (5) per cent per annum, interest payable annually on the first day of November in each year, commencing on the first day of November, 1895, with principal and interest payable at the office of the treasurer of the said city of Janesville.

And the mayor of said city and said city clerk are, and each of them is hereby directed to sign said bonds and each of them, and to see that said bonds are, and each of them is sealed with the corporate seal of said city of Janesville.

Said bonds shall be payable as follows, to wit: Five of the said bonds on the first day of November 1896,

Five of said bonds on the first day of November 1897,

Five of said bonds on the first day of November 1898,

Six of said bonds on the first day of November 1899,

Six of said bonds on the first day of November 1900,

Six of said bonds on the first day of November 1901,

Six of said bonds on the first day of November 1902,

Six of said bonds on the first day of November 1903,

Six of said bonds on the first day of November 1904,

Six of said bonds on the first day of November 1905,

Six of said bonds on the first day of November 1906,

Six of said bonds on the first day of November 1907,

Six of said bonds on the first day of November 1908,

Six of said bonds on the first day of November 1909,

Six of said bonds on the first day of November 1910,

Six of said bonds on the first day of November 1911,

Six of said bonds on the first day of November 1912,

Twelve of said bonds on the first day of November 1913.

Interest warrants shall be attached to each of said bonds and shall be signed by the city clerk of said city, and each warrant shall be numbered to correspond with the number of the bond to which said warrant is attached.

Said bonds and interest warrants shall be substantially in the form of those heretofore issued by said city for similar purposes.

Section 2. This ordinance shall take effect and be in force from and after its passage and publication, which publication shall be for three successive days.

Approved: JOHN THOROUGHGOOD, Mayor.

Consolation for Fat People.

A physician points out that fat people endure most kinds of illness much better than thin people, because they have an extra amount of nutriment stored away in their tissues to support them during the ordeal. Moreover, there are many other consolations for persons of abundant girth. They are generally optimists by nature, genial and jolly companions, whose society is universally preferred to that of people with angular frames and dispositions.

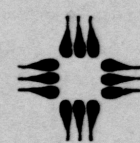

The First Manufacturing City.

New York is the first manufacturing city in the country. It has 11,000 factories, which make every year \$500,000,000 worth of goods, including \$80,000,000 of clothing, \$25,000,000 of books and papers and \$18,000,000 of cigars. Central park covers 862 acres and cost \$15,000,000.

Largest Tobacco Warehouse.

Louisville, Ky., has the largest tobacco warehouse in the world. It can store 7,000 hogsheads. It has also the greatest handle factory, where handles of axes, hammers and all sorts of tools are made of the best hickory, and are shipped by millions to all parts of the world.

Watch This Space, the Ad will be Changed Every Day.

JANESVILLE, Wis., August 1, 1894.

To The People of Janesville and Vicinity:

You are cordially invited to visit the exhibit of **MAJESTIC STEEL RANGES** now being conducted in our store, where we have one in operation and are serving delicious hot biscuits and coffee to all who call.

The **MAJESTIC RANGE** is no new invention here for a short time, but is the outgrowth of over thirty years' experience and labor of the largest steel range maker in the world. They are made nearly wholly of cold rolled steel and malleable iron, and use less fuel by one-half than any cook stove in use. THE MOST POWERFUL WATER HEATER ON EARTH. THE BEST COMBINATION COAL AND WOOD GRATE IN THE WORLD. Come and examine thoroughly, see it in operation and use your own good common sense and judgment as to the merits of the Majestic. The cooking apparatus is the most important article that contributes to the comfort of a well regulated home, the **MAJESTIC STEEL RANGE** is unquestionably the best in the market. As a proof of this there are more of them sold than all others combined that are sold by dealers in the United States.

We have testimonials in our store from delighted users in every state in the Union. Come and have the many excellent points of this cooking wonder shown you, whether you wish to buy or not.

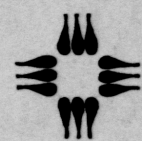

We buy these Ranges and expect to continue to do so as long as we are in business. We are responsible, and guarantee every Majestic Steel Range just as represented; they are even better than we claim.

Respectfully,

A. H. SHELDON & CO.

DR. AND MRS. WOODS HURT IN A RUNAWAY

BOTH PICKED OUT OF A PILE
OF WRECKAGE.

Severe Scalp Wounds Inflicted and Internal Injuries Feared—More Janesville Campers at Koshkonong—Hugh Miller in Court—Madison Jealous of Janesville.

Dr. E. F. Woods and wife were picked out of the debris of a wrecked buggy on West Milwaukee street at noon today. Mrs. Woods was partly unconscious, and her husband had an ugly gash over the right eye. Mrs. Woods received a very bad scalp wound, the greater part of the scalp on the left side being torn loose and besides this she received internal injuries in her chest. They were taken to their rooms in the Sutherland block. Mrs. Woods is resting very comfortably considering the extent of her injuries. The doctor is attending to business with his head bandaged. His buggy was a complete wreck. He was driving down the Milwaukee street grade, and at a pretty good pace. In turning out to pass a heavy team, the girl on his harness broke, letting the thills fly up. The horse took fright and the accident followed.

J. S. JOHNSTON, manager of the Majestic Manufacturing Co., is in the city superintending the exhibit of Majestic Steel Ranges, now being made at A. H. Sheldon & Co's. Mr. Johnston is well described by the phrase "a clean cut business man." The Majestic Steel Range is meeting with great success, in Janesville, a fact which is not surprising as long as Mr. Johnston manages the campaign.

HUGH MILLER was before the municipal court this morning to answer a charge of drunk and disorderly conduct. He was adjudged guilty and was given five days in the county jail. "I believe it would have been the right thing had the charge been 'common drunkard,'" said Judge Prichard, who presided to-day. "Miller ought to get a longer term; perhaps it would do him good."

JOHN PITCHER, the city weigher is one of the happiest men on South Main street today. His roadway leading to his scales has been blockaded for a week. The blockade was raised yesterday, and he is happy. He paid the contractors \$18 for paving the sidewalk and roadway leading from the street to the scales.

ANOTHER party of Janesville people will go into camp at Johnson's on Lake Koshkonong Monday; Mrs. O. Sutherland, Mrs. C. C. McLean, Mrs. G. M. Hanchett, Mrs. Charles Bostwick and Misses Etta Hanchett, Alice Heimstreet and Cora Sutherland. They will be in camp about ten days.

Now is the best time to go and see land in Clark county, for sale by the C. S. Graves Land Co. The present price will be the lowest for which it will ever be offered. Why rent a farm or pay a high price for it when you can buy of this company at only \$7.50 per acre, easy terms.

ONE month more and school will commence. Now is the time to get a suit for your boy. We have some long pant suits which originally sold for \$7.50, \$10 and \$15. They are slightly damaged, don't hurt them, we are closing them out for \$2, \$3 and \$4. T. J. Ziegler.

Mrs. A. K. CUTTS and son Herbert Cutts who have been visiting relatives at Frankfort, Mich., for several months, returned home last evening. Herbert Cutts met with a painful accident while in Michigan resulting in the loss of an eye.

PRICES like ours may seem too strangely low to be probable, but there are a good many things possible to us that look like miracles to other dry goods dealers. For instance, that fine silk for 59 cents a yard. Bort, Bailey & Co.

Mrs. HUGGINS, an elderly lady, who moved here from Janesville some six months ago, was relieved from her suffering by death on Sunday morning. The funeral was held today and the remains taken to Plymouth for interment—Clinton Herald.

We stand up to tell the public that we are thorough, practical shoe dealers, and fitters of feet, and will interest everybody with our merit, if they will inspect our very large assortment of fine footwear. Brown Bros. & Lincoln.

Don't forget to call at 69 West Milwaukee street, while the assignee sale of millinery goods is going on. You can buy hats and goods in their line cheaper than ever before offered in Janesville.

We have a line of ladies' fine cloth top, button shoes, made up in a late style which we bought in the Michigan stock and which we shall retail at \$2.00 a pair until sold. Brown Bros. & Lincoln.

Why is our August clearance sale like a magnifying glass? Because it makes your quarters appear as large as dollars usually are. Children's rockers \$1.00. Frank D. Kimball.

HOW THE HEIRS FARE IN THE STONE CASE

DEFINITE SETTLEMENT HAS
FINALLY BEEN REACHED.

Mrs. Ashton Gets \$25,000, Winans & Hyzer \$10,000, Ed F. Carpenter \$2,500, and the Rest of the \$147,000 Will Be Turned Over to the Other Heirs.

The Stone estate, which now inventories at \$147,000, has been settled at last and the vast estate will probably be distributed among the beneficiaries by Christmas time. Until that time, or until the assembling of the county court on the first Tuesday in December next, Administrator Sylvester Morgan will hold possession of all the property.

"I hear that the attorneys in the case have agreed upon a plan of distribution," said the administrator this afternoon, "but that has nothing to do with me."

The decision agreed upon is said to be as follows: Mrs. Ashton is the first to receive securities amounting to \$25,000.

Second come Winans & Hyzer, who are to get \$10,000 in securities. There is to be a \$2,500 endorsement on Carpenter's note, originally \$5,430 but now \$6,000.

The balance of the estate is to be transferred to Fethers, Jeffris, Fifeid & Matheson, they to make the division among the other heirs.

"I understand that is the way the property is to be distributed," said Mr. Morgan, "although I know nothing about it positively. 'I understand' and that some of the parties are disappointed. Mrs. Ashton had been led to expect her \$25,000 in securities in June, but this of course was impossible. I am now endeavoring to turn all the personal property into cash, and I think I will have everything disposed of in time to close up the estate and make the distribution in December."

Administrator Morgan says he is somewhat disappointed that the estate does not inventory as much as he anticipated, and that real estate now inventories \$10,000 less than it did one year ago, the valuation being by the same parties. He is also satisfied that he is not in possession of all the personal property by several thousand dollars, but is on the track of some of it.

TWO ACCIDENT CLAIMS SETTLED

E. Ray Inman and E. T. Fish Receive Their Money From the "Travelers."

Two losses have just been adjusted by President E. W. Lowell of the Travelers Preferred Accident Association. Mr. Lowell visited E. Ray Inman last evening and settled his claim, and the day before E. T. Fish's claim was adjusted. Mr. Inman writes this letter:

This is to certify that I have this day received indemnity from the Travelers Preferred Accident Association of Chicago, in accordance with a policy issued to me by said association for injuries received by me on or about July 31, 1894.

I take pleasure in stating that settlement of the claim was prompt, straightforward and business like on part of said company and wholly satisfactory to me. E. RAY INMAN.

Dated, Janesville, Wis., Aug. 2, 1894.

Funeral of Frank Sutherland.

Details of Frank M. Sutherland's death are given by the Madison papers. The Journal says: "Mr. Sutherland was thirty-seven years of age and was well known in this vicinity, having married Miss Emma F. Deards, of this city, some five years ago. She with two children survives him. They have the sympathy of a large circle of friends. He also leaves a mother, four brothers and one sister Dr. and George Sutherland, of Janesville; Albert Sutherland, of Randolph, Iowa; Henry Sutherland, of Syene, and Mrs. George Gill, of this city. He was a son of Chester Sutherland, an old resident of Syene."

The funeral took place at his late residence near Syene today at 2 p. m.

PLUCKY BOY'S NOSE BORED OUT.

Ollie Bladon Endures An Operation of the Most Painful Sort.

One of the most difficult operations which surgeons are called upon to undertake was performed upon Ollie Bladon, son of Mr. and Mrs. William Bladon, Tuesday. Several years ago Ollie broke his nose and the bone and cartilage of the bridge had been so crowded over that it filled the left nostril. The only remedy was to bore a passage through the bone with a tubular saw the size of a lead pencil. No anaesthetics could be given as the flow of blood into the throat made strangulation very probable if the subject were unconscious. With nothing to deaden the pain, therefore, Ollie was propped up in a chair and the swiftly revolving tubular cutter was pressed against the barrier. As it ground its way through the living bone the pain may be imagined, but the plucky boy bore his sufferings bravely. A core of bone and cartilage a third of an inch in diameter and over an inch long came out with the drill when the cutting was ended, and the almost fainting sufferer was allowed to rest. Another operation may be necessary later, but if so, it will be less severe, as cocaine can be used. For two weeks Ollie will remain at the Chicago hospital where the operation was performed.

UNION MEN TO GO INTO POLITICS

They Will Form People's Party Clubs Outside of Their Assemblies.

Members of local labor unions are being urged to form people's party clubs. The influence is exerted by Milwaukee men, one of whom said:

"That the laboring classes are at last opening their eyes to the true state of affairs existing in this country, made manifest by the action of the corporation controlled magistrates and elective officers during the strike of the American Railway union, is apparent. As a result a number of People's party campaign clubs will be formed by members of the different unions. The clubs are to be distinct organizations, separate from the union, and the question of politics will not be considered at union meetings."

MISS GRIFFIN AFTER A RAILROAD

and the C. & N. W. Doesn't Give Her Enough To Keep Her Busy.

It seems to keep Lucia B. Griffin busy suing the railroads. The clever little elocutionist has a case against the Chicago & Northwestern on her hands, for injuries received in a wreck north of here. On top of that comes a prospective case against Illinois Central. The Madison Journal says Miss Griffin is very likely to sue the Central. She suffered a severe fall in the Madison baggage room, the intervention of a chair being all that saved her from very severe injury.

EVANGELIST WELCH WANTS
TO CARRY A REVOLVER.

Mayor Thoroughgood Suggests That Reliance Had Better Be Placed Upon Chief Acheson's Hickory Cane, the Janesville Light Infantry, and After That, the Regular Army.

It was a reflection on Janesville, the way Evangelist Welch acted today. Time and again he has declared that he wasn't afraid of any number of devils—ring tailed, horned, two-headed or with legs like a centipede. Devils he would meet without flinching, and a man who isn't afraid of devils ought not to worry about anything else. Nevertheless Mr. Welch called on Mayor Thoroughgood this morning and asked for a license to "tote a gun," as they say out in the land of faro and draw poker.

"I could give him no answer," said Mayor Thoroughgood, "further than to have him see the city attorney. The latter gentleman had not seen Mr. Welch up to 2:00 p. m. There is no power in this state to give the privilege asked for. Mr. Welch's course will be to make complaint to the municipal judge in case his property is destroyed or he is molested in his work. In case the police are called upon by Mr. Welch to suppress any disturbance it will be their duty to respond. Further than that the police will attend to their proper duties. Mr. Welch has told me he is about to retire in a few days for other fields, and I would rather see him retire with a pleasant memory for Janesville than otherwise, and hope that whatever the grievance may be we shall have no further trouble. Individually I do not have any use for Mr. Welch's kind of worship. Those that do I find no fault with."

The Kiss.

In England, down to the reign of Charles the Second, or a little later, the kiss was the common greeting to friends and strangers alike, and shaking hands was a mark of close intimacy or high favor. In the diary of Anne, countess of Pembroke, her ladyship thinks the fact of her shaking hands with any one worth noting.

Mrs. Philip Sheridan is said to be almost the only widow of a great war chief who has absolutely declined purses, funds and any such testimonials after his death.

The daughter of the late king of Sweden, now crown princess of Denmark, is the giantess among the royal personages of Europe. Her highness amounts to considerably over six feet.

Harland Page Halsey, better known as "Old Sleuth," the writer of hair-raising detective stories, is an active member of the Brooklyn board of education. His income from his novels is about \$20,000 a year.

In a recent interview with a reporter of a Naples newspaper, Pietro Mascagni, the composer, said that he had received from his opera, "Cavalleria Rusticana," alone, up to the present time, \$90,000. The publisher, it is said, has made over \$500,000.

Robert Louis Stevenson's estate in Samoa includes 400 acres of forest land, and is situated at an elevation ranging from 600 to 1,500 feet. Among the products of his plantation are bread fruit, pine apples, bananas, coconuts, India rubber, sugar cane, ginger, kava, taro, grenadillas, oranges, citrons, coconuts, vanilla, coffee and cinnamon.

Julian Hawthorne, who went with his wife and seven children to Jamaica some months ago, writes back that he has concluded to pass the rest of his life there. He is located on a plantation near Kingston and growing orange and citron trees and coffee, and incidentally writing something which he hopes "will interest our great grandchildren" even.

Denys Puech, whose marble figure of the Seine has led many French people to look upon him as "the hope of the young art" of France, is the son of one of the poorest peasants of France, a farm hand who has struggled against poverty with one cow, half a dozen sheep and a tiny bit of land in the south of France. The son began to mould figures in clay when a small boy, and passed years in the direst poverty until he worked his way to France.

Mrs. Ye, wife of the Korean charge d'affaires at Washington, came to the United States in company with the wife of the Korean minister, Pak Yung Chang, and for some time the women were kept in seclusion. They have emancipated themselves, however, and now Mrs. Ye understands and speaks the English language, and can play on the piano, run a sewing machine, and do lots of other things that American women are taught to do in childhood.

On the Safe Side.

Everybody knows that it is a good place to be, but everybody does not take measures to be there. An efficient preventative faces us on the safe side of incipient disease, and there is no one more reliable than Hostetter's Stomach Bitters in cases where the kidneys are inactive, which is but the preliminary to various destructive maladies, which disregarded have a fatal termination. Bright's disease, diabetes, dropsy, oedema, are but the outgrowths of neglected action of the kidneys and bladder. They should be checked at the outset with the Bitters, which will prevent their progress by arousing the renal organs to activity, and thus place those who resort to this saving medicine on the safe side. This preservative safety also cures constipation, liver complaint, malarial fever, nervousness and dyspepsia.

CAVALRY CHARGER IS NOT FOR PEACE.

HOW "FIGHTING GUY" HENRY
WON HIS SPURS.

His Record in the Civil War Was
Creditable But It Was in the Indian
Campaigns That He Became Widely
Famous.

FIGHTING GUY, OR
Brevet Brig.-Gen.
Guy V. Henry, as
he is familiarly
known in the
army and all along
the western fron-
tier, is a slender
man, hardly
above medium
height, and proba-
bly does not weigh over
140 pounds. His complexion is fair,
his small moustache a very light
brown and his eyes are the lightest of
light blues. They look equally good,
but only one is serviceable, the sight
of the other having been destroyed by
a 44-calibre ball in the battle of Rose
Bud Creek, June 17, 1876. At the same
time and by the same bullet was made
the deep scar which marks his left
cheek, near the sightless eye.

His one good eye sees more points in
a cavalryman's performance than most
men discern with two, and he is fa-
mous, not only in this country but
abroad, as the most thorough cavalry
disciplinarian and drill master in
America.

Gen. Henry was graduated from
West Point on May 6, 1861, and was
assigned to the First artillery as a
second lieutenant at once. All through
the war of the rebellion he remained
in that branch of the service, winning
distinction by his gallantry and
marked ability in continuously
arduous duty. In 1871 he was hunting
Apaches in Arizona. In 1873 he was
on duty in Wyoming, and through
1874 and 1875 was having lots of in-
teresting times scouting in the Black
Hills, fighting Indians, getting frozen
in blizzards, and otherwise enjoying
himself. He commanded a battalion
in Gen. George Crook's Big Horn and
Yellowstone expedition against Sitting
Bull and the Sioux, fighting in the
battle of Tongue River—or Rose Bud
creek—where he received that severe
wound by which his left eye was de-
stroyed. He was carried off the field
on an Indian travois—poles dragged
behind a pony—and, as he did not re-
alize the general expectation by dying
promptly of his wound, but seemed
likely to get better, he was sent down
to California on a three months' leave
of absence to get well if he could. In
seventy days he was back with his
command, too eager to get at the In-
dians again to waste any more time
on a mere wound.

In 1890-91, when the Wounded Knee
campaign occurred, Gen. Henry and
his command were stationed at Fort
Robinson. Gen. Miles sent to him by
No-neck, sergeant of the Indian scouts,
a despatch advising him of the per-
ilous situation at Pine Ridge agency.
Immediately on receipt of the dispatch
"Fighting Guy" mounted three com-
panies of the Ninth United States
Cavalry (colored), and rode, without
unsaddling, and in twenty-one hours,
the distance of 104 miles to Gen.
Miles's relief. And it is still talked
of among the cavalrymen that he did
not bring in from that long and hard
ride one sore backed horse. His men
were well taught how to ride and to
care for their animals. As soon as he
arrived he held a hurried consulta-
tion with Gen. Miles and his staff.
The dangerous position of the Seventh
cavalry at Wounded Knee being made
known to him, he ordered his men to
mount at once and ride to the succor
of their comrades. They had unsad-
dled, but when he said "mount," they
knew that was what he meant and
obeyed. Gen. Miles ordered him to
saddle up, but he replied that he had
no time for that; he was looking for
Indians, not saddles. Miles threat-
ened to court martial him for disobe-

"FIGHTING" GUY HENRY
dience but he replied indifferently.
"All right—when we get back," and
galloped off. His command, riding
bareback, hardly drew rein until they
had ridden the fourteen miles, which
brought them to Wounded Knee in
time for battle. But for their oppor-
tune arrival the Seventh cavalry
might have been annihilated, as were
Custer and his men. For this achieve-
ment "Fighting Guy" was again com-
plimented in special orders issued by
the War Department. Nothing more
was heard of the threatened court
martial.
□ Deeming that he had fairly earned a
rest, for a time at least, Gen. Henry
chose as his place of duty Fort Miles,
at Washington, near to his family. It
is the only cavalry post in the service,
and the men under his command are
as perfect riders as any army in the
world can produce. They do not deem
it any feat at all to go through a drill
on barebacked horses. That which
they do, which is infinitely harder, is
to go through all the evolutions, and

even to jump hurdles and ditches,
seated upon saddles which are entire-
ly ungirthed and lying loose upon the
horses' backs, with the stirrups crossed
upon them and unused. Yet, in that
fashion, successive lines of twenty-
four men in each will sail over the hur-
dles, all moving as one man, and no-
body trembling or even showing un-
steadiness. These drills take place
every Friday morning, and are always
witnessed by senators, representatives,
cabinet officers, foreign diplomats,
and, indeed, all the official and fash-
ionable life of the capital.

Within a few days Gen. Henry re-
ceived the bronze bravery medal
awarded to him for his gallantry at
the battle of Cold Harbor in October,
1863. He had two horses shot under
him in that engagement and received
two body wounds, but never left the
field until the fight was over and won.

HAZEN S. PINGREE.

A Michigan Man Who Has Late-ly Be-
come a National Figure.

Mayor Hazen S. Pingree of Detroit,
Mich., is a new man who has sprung
into more or less prominence during
the past two years. A few months
ago the New York Tribune had its at-

HAZEN S. PINGREE.

tention attracted toward Mr. Pingree
by the noise he was creating in the
political world of Michigan, and de-
voted a page to him, his past life and
his work in Detroit, where he is
known as the reform mayor. The
Tribune pointed him out to the repub-
licans of the United States as a com-
ing Presidential possibility.

Mr. Pingree's latest move was his
attempt to settle the great Pullman
strike by calling to his aid
fifty of the mayors of the
leading cities of the United States
in hopes that so powerful an influence
brought to bear upon Mr. Pullman
might induce him to submit to arbi-
tration. That the movement failed,
owing to the refusal of the Pullman
company to be influenced, was no
fault of the man who conceived and
carried out a movement designed to
bring about good.

Mr. Pingree is and always was a re-
publican. He is a veteran of the late
war with an unblemished military
record. He was forced into politics
when Detroit was a democratic city by
majorities ranging from 4,000 to 5,000.
He was elected mayor of Detroit on
the republican ticket in 1892 by a ma-
jority of only 100. The democrats cap-
tured all the other officers. In 1894 he
was re-elected by a majority of 5,000,
carrying into office with him the en-
tire republican ticket.

Mr. Pingree's career in the mayor's
chair has been one long battle against
the monopolistic trusts which have so
long held Detroit as in a vice. He
believes in municipal control of street
railways, public lighting, water sup-
plies, etc. His labors to bring about
such a state of affairs in Detroit have
met with the approval of the people.
The city is at present engaged in
building a magnificent electric light-
plant. The street car question is still
in court. L. J. B.

Lemon Juice.

Lemon juice, squeezed in California,
treated with a preservative process,
and sent east by the barrel, is now
sold in earthen jugs containing from
half a gallon to ten gallons. It is used
for all sorts of domestic purposes, for
lemonade and for making mixed drinks
at the bar and in clubs.

A Four-Legged Chicken.

A four-legged chicken came into the
family of Dave Myler, of Johnson
City, Mo. As two of the legs were for
forward locomotion and the other two
always insisted on walking backward,
that unfortunate chicken found it
difficult to advance in the world and
gave up the effort in despair.

Electric Delirium.

A new form of delirium tremens has
attacked a New York toper. While
under the influence of a lively jag he
was shocked by an electric wire. Now,
when he has taken too much whisky,
he fancies he sees sputtering electric
wires and writhing snakes, which
shower him with sparks.

Prevent Lies and Slander.

The Vienna police have general
charge of all newspapers and keep
records of all presses and publica-
tions, maintain a censorship over all
the theaters and plays and issue li-
censes for the publication and sale of
all books, magazines and periodicals.

Novel Use for a Phonograph.

In recent legal proceedings in Lon-
don regarding the noise and vibration
caused by a neighboring factory, a
phonograph was used to record these
noises and reproduce them in court,
at the suggestion of Prof. S. P.
Thompson.

Thieves as Jokers.

To frighten burglars Edward Jen-
kins of Louisville kept a savage canine
and displayed this sign: "Look out
for the dog." Some thieves poisoned
the dog, stole fourteen chickens and
made the sign read: "Look out for
the chickens."
